Docket No. 98N-1265

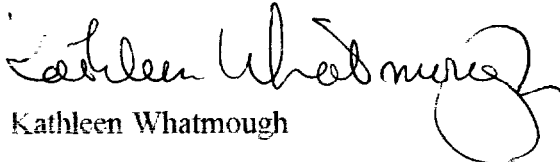

Food and Drug Administration

7251 99 APR -1 P2:12

5600 Fishers Lane

Rockville, MD.20857

**I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of 'inordinate amount' which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.**

Kathleen Whatmough

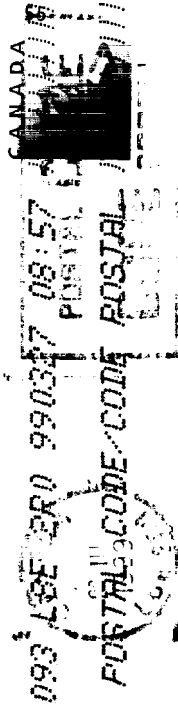

March 25th 1999

Through the Women's Health America group, my doctor and I have received invaluable information and help. And thanks to Madison Pharmacy's ability to supply and compound the supplements prescribed by my doctor - here in Burlington, Canada - I am still energetic and alert enough to write this letter. Only **a few months ago my memory was deteriorating, my muscles were giving out, and I was rapidly becoming an invalid.** Today I am a healthy, energetic member of our North American society - thanks to American know-how and the likes of Madison Pharmacy. **It has taken many months to establish the right dosages;** and Madison Pharmacy have invariably been both informative and co operative. 'To be cut off from this very necessary hormone therapy, still unavailable here in Canada, would be personally and socially devastating. Surely the larger commercial Corporations have already' done enough **damage to us all without grasping still another segment of our lives, and skimming off still more of our money for the sake of their investors. Small business will always be the backbone of any free-market society; do all you can to nurture it . . . and please, don't cut me off.**
